

Artist Guidelines and Terms & Conditions

Welcome to SCULPTURE Bermagui, for the first time or on a return visit. We aim to make this experience as enjoyable and successful for you as possible.

THE EVENT

SCULPTURE Bermagui (formerly Sculpture on the Edge) is produced and curated by Edgy Art Incorporated ABN 93 559 906 457, a volunteer arts organisation.

Indoor sculptures are exhibited in the adjacent Bermagui Surf Lifesaving Club. These areas are shown on the Site Plan.

Sculptors need to bear in mind that this is a public art exhibition that will be attended by a broad section of the community. Consequently, for public safety, such as sharp edges, protrusion points and unstable structures need to be avoided. Any glass used must be classified as toughened.

The Management Committee reserves the right to reject any sculpture which it believes presents an unacceptable level of risk to public safety. However, if exhibited, they may be subject to the implementation of risk management strategies, such as the flagging of guy ropes or use of other barrier material around the exhibit.

Installation and Deinstallation

Exhibiting artists are responsible for the installation and deinstallation of their sculptures. A team of volunteers and a mobile crane are available on the days mentioned below to provide assistance with both processes. Exhibiting artists who require use of the mobile crane need to indicate the approximate date and time in their Entry form.

Installation of Outdoor and Indoor sculptures will take place between:

- 8.30am and 5.00pm on Wednesday 3 March -
No crane available (Outdoor only)
- 8.30am and 5.00pm on Thursday 4 March; and

This enables the judging to take place for the presentation at the Preview event on that Friday evening.

- 3.00pm and 6.00pm on Sunday 14 March; and
- 8.30am and 2.00pm on Monday 15 March

OUTDOOR SCULPTURE GUIDELINES

Design and site selection

It is preferred that the public may touch or interact with all Outdoor sculptures and therefore we welcome works intentionally designed for this and which engage with the younger generation in this manner.

Earthworks

The headland exhibition site is subject to cultural heritage protection legislation which prohibits major earthworks.

- Sculptures to be exhibited on the headland will need to be of freestanding design.
- Anchoring with steel pegs is acceptable.
- Compactable road base/granite will be available to level sites
- Bark mulch is provided to camouflage any plating or base, if desired.
- At the eastern end of the headland, support structures of sculptures may make a hole of maximum 250mm wide and 450mm deep.
- Sculptures that require earthworks for installation may still be accepted, however they can only be sited in the foreshore reserve behind the Horseshoe Bay beach (see attached Site Plan).

Note: In accordance with Council conditions and the Management Committee's environmental ethics, it is the **exhibiting artist's responsibility to restore the site** to its original condition after deinstallation.

Site selection

- Site selection is initially determined by the site requirements of the sculpture, as detailed above.
- Preferred site selection is offered to those artists who indicate their preference on the attached **Site Plan** and submitted with their Entry. **However, no site preference can be guaranteed.**
- Alternatively, site selection will be made by the Curation team and the artist on the day of installation, in accordance with risk assessment and cultural heritage protection legislation

INDOOR SCULPTURE GUIDELINES
